📜 CERTIFICATES

Associate Cloud Engineer(11/2022 - 11/2025)

Google Cloud Platform

AZ-900

Microsoft Azure Fundamental

💼 PROFESSIONAL EXPERIENCE

Persistent Systems

Software Engineer

07/2022 – present | Nagpur, India

- Developed and maintained Java applications utilizing Microservices architecture and Spring Boot framework.
- Utilized PostgreSQL databases to design and implement robust data storage and retrieval solutions, optimizing query performance and database operations.
- Leveraged strong proficiency in React.js and JavaScript to develop interactive and dynamic user interfaces.
- Implemented state management solutions using Redux, ensuring efficient data flow and application stability.
- Designed and implemented robust and scalable solutions to meet client requirements, ensuring code efficiency and optimal performance.
- Conducted thorough testing of software modules, identifying and resolving bugs to deliver high-quality products.
- Worked on various user Stories and completed before the completion of sprint.

📁 PROJECTS

Buy Busy

- This is an e-commerce website for buying clothes, artificial jewelry, etc. In this, we have a sign-in and sign-out feature for users. We can also add & remove items from the cart. We can place an order also.
- In this project, I worked on both the front end and back end. For the frontend, I used React js and in the backend I used Firebase.

Photo Folio

- This project is about making an album of photos. In this project we can create an album and after that we can add images to that particular album.
- The technologies which I used in this project are React JS and Firebase.

🏆 ACHIEVEMENT

- Leetcode 450+ DSA & Competitive Programming question.
- Participated in a college level SIH 2020.
